### Big Data Cloud Labvo.007

One(1) Millions Big data Analytical Platform

## Big Data Analysis On-premises & AWS cloud 200 Command Line Interface

Module 01: Data Literacy (Reference from University of Arizona, USA)

Module 02: One Million Data Set Overview

Module 03: Project Papers "DataCo" Overview

Module 04: Hardware & Software "Bill of materials"

Module 05: Vendors Solution through Cloudera Enterprise and AWS cloud

Module 06: On-premises & Cloud, Big Data Analysis (Hive & Cloudera Enterprise)

Module 07: AWS Cloud Ec2 (Cloudera) & EMR Big Data Analysis

Module 08: Big Data Hadoop Admin Command-Line - Linux 50 & Hadoop 50 commands

Module 09: Big Data SQL Command-Line for Hive Data Warehouse - 50 commands & SQL Scripts

Module 10: Data Visualization by Power BI ( Business Intelligence) - 50 commands & SQL Scripts

Module 11: Real Life Data Analysis Assignment (National Hot Issues, Like COVID-19 T&V) and Project Presentation

Module 12: Kickoff Launchpad with Big Data Community FORUM, Meetup, Conference, Webinar, Seminar, Data Science Society, University, Data Vendor Research & etc

# On-premises & Cloud, Big Data Analysis (Hive & Cloudera Enterprise)

Section 01: Admin Job - Linux, Hadoop, Hive & Power Bi (Installation, Configuration File, etc)

Section 02: Admin Command for Hive Data Warehouse

Section 03: Database Schema (My SQL VS Hive HQL)

Section 04: Data Loading

Section 05: SQL Command - Part1

Section 06: Complex SQL Command - Part2

Section 07: SQL Command Result Output

Section 08: Power BI Run Through Hive Data Warehouse

Section 09: Project > sql-hadoop-analyzing-big-data-hive ( Project at the University of Minnesota, USA)

Section 10: Big Data application for Corporate Reference (Hive Data Warehouse, Walmart, Facebook, ....)
